► **International Student Association**

To whom it may concern,

I am writing with great enthusiasm to apply for the position of Treasurer in the International Student Association at Riga Stradins University. With my current experience serving as both Treasurer and President of the Asian Society, along with my active involvement as an International Student Association activist, I am excited to contribute my financial management skills, organizational acumen, and dedication to supporting the diverse international student community.

Throughout my studies at RSU, I have gained valuable insights into student leadership and advocacy, taking part in organizing and helping in events such as Sports Tournaments, Orientation Weeks, and Asian Society Events. These experiences have strengthened my abilities to collaborate effectively with diverse teams and manage responsibilities efficiently.

Serving as Treasurer of the Asian Society has strengthened my skills in financial management, budget oversight, and effective communication. My active role within the International Student Association has given me valuable insights into budget allocation across different societies and strategies for optimizing fund usage. Furthermore, through guidance from the current ISA Treasurer, I have developed a clear understanding of ISA's organizational structure as well as the challenges it is currently facing. These experiences have deepened my sense of responsibility and teamwork, which I am eager to apply in supporting transparent financial practices and accountability within the ISA.

Outside of university, my leadership roles as a senior prefect and house games captain during high school, along with my extensive experience as a Patrol Leader in scouting, have further developed my organizational and leadership skills. Coordinating community service projects and outdoor activities has taught me to take initiative and manage responsibilities proactively which are qualities essential for the role of Treasurer.

If appointed, I plan to initiate programs that improve transparency in fund allocation and encourage active participation from international students in financial decisions related to their societies. I am committed to ensuring that the funds provided by RSU, one of the few universities in Riga offering such support, are fully utilized to benefit students. I will work to streamline communication between students and the ISA, addressing any issues related to budget proposals and reimbursements promptly and efficiently. Additionally, I aim to provide societies with clear, accessible information to help them organize more successful and well-funded events.

Thank you for your consideration. I look forward to the opportunity to help strengthen the ISA's financial management and support its continued success.

**Yours sincerely,
Kumarasinghege Vijan Selana Perera.**
